## From the Desk of CHAIRMAN

Founded in 2005, Eastern Medical College is one of the leading Medical Institutes that has entered its 16<sup>th</sup> Glorious year. Currently Eastern Medical College is a unique Educational Institution in South East Asia. After a decade it has now achieved international standard with experienced faculty members. Preference by foreign students for Medical Education in Bangladesh is increasing day by day. Graduates of this Institute, Bangladeshis as well as from India, Nepal, Germany and UK have achieved significant success in their chosen fields of speciality and many have moved on to complete Post Graduation in different parts of the world. Our College Campus is well planned with Hospital & faculty building of different departments having enough space which is free from public gathering. We have spacious, cozy boys and girls hostels the type of "home away from home" inside the College Campus area, which is representing a comfortable Medical Academic Environment. Besides education, students are engaged in different extra curricular activities like cultural activities, debate competition, indoor and outdoor sports etc. Eastern Medical College authorities' strategic plan is focused only on Medical Education. We welcome you to join the noblest profession and serve the humanity. Thanks to all.

## From the Desk of CHIEF ADVISOR

As Comilla is situated in the eastern region globally & nationally so our beloved Institution is named as Eastern Medical College (EMC). Though so many Medical Colleges are established now, still there is a crisis of doctors at home and abroad. EMC provides both native & foreign students in equal strength. Already the academic & structural scenario acquired national standard.

Peoples of greater Comilla are getting low cost treatment and investigation facilities from indoor, outdoor & emergency wings of Eastern Medical College Hospital (EMCH). Majority of the directors of managing committee are senior expert Medical Professionals who has taken the responsibility of teaching and management. The teachers are not only busy with teaching & management but they also review progress of study through phase committee.

Principal of EMC has started one online system by which the guardians can easily know the information of their incumbent from anywhere. Finally I can say after completion of 5 yrs. study and one year internship in EMC every student becomes a physician who can serve the humanity in a global standard.

Allah Hafez. Joy Bangla.
